Dear Brian:

I am pleased to inform you of your appointment to the Advisory Committee for the Architectural Technician/Technology program.

Our Advisory Committees are the vital link between business, industry, professional associations and the College. In addition to ensuring the programs we offer are relevant and current, the Advisory Committees play an important role in program renewal and development. The Board of Governors depends on Advisory Committees to enhance the partnership between the College and the community.

Thank you for committing your time and expertise to work with the Architectural Technician/Technology Advisory Committee. We trust that you will find your role with the College professionally interesting and rewarding.

Sincerely,

Catherine Drea
Vice President
Academic and Student Engagement
